Recrystallization)	

Interview Record

December 10, 2003

Mail Stop AF
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450
Sir:

An interview was courteously granted by Examiner Tran on the above-referenced application. At the interview, the undersigned attorney urged that Bryant or Yasuhara fail to teach measuring recrystallization as the aluminum sheet was being produced. Thus, the claims were patentable over these references. Applicant also urged that claims 14-63 should be included if claims 1-13 are allowed. The Examiner requested Applicant to file a Request for Continued Examination and agreed to include and examine restricted claims 14-63.

Respectfully submitted,

Customer No.
27901
